Department of Educational Psychology
Quantitative Methods Course Sequence

- Solid paths identify course prerequisites. Dashed paths identify courses that are recommended in addition to the prerequisite courses.
- Multiple prerequisite routes to a course (e.g., for Advanced Seminars and Special Topics) means that any of the paths can be followed.
- F = Fall course, S = Spring course

*Includes courses such as Longitudinal Data Analysis, Latent Variable Modeling, Categorical Data Analysis, Statistical Computing, and Advanced Seminar in Educational Measurement & Statistics. Prerequisites and recommended prerequisites may vary depending on the topic.
